**Product** : Rev Fuel Injector Cleaner & Conditioner

**Part #** : R414

**Type** : Fuel Management

**Engine** : Gas and Diesel

**Description** : Cleaner and Conditioner

Made with Isopropyl Alcohol

## Problem Symptom

Provides maximum performance in all types of modern, precision-engineered, fuel injected, gas and diesel engines. Recommended for Snowmobiles & motorcycles.

Eliminate engine hesitation, stalling, rough idling and sluggish performance.

## Performance

- Dissolves the inside deposits of port injector tips in fuel injected engines and carburetors
- Prevents rust and corrosion as chemical detergents absorb amounts of water in fuel tank
- Stabilizes fuel to stop the formation of fuel deposits

## Application

Recommended application at every 3,000 miles (5,000 km) for peak performance.

Use 12 oz. (350ml) per tank of gas. Treats 10-15 gallons (45-55 Litres).

For diesel engines use 12 oz. (350ml) per 50 gallons (225 Litres)

## Characteristics

- Removes deposits, Absorbs water
- Prevents rust and corrosion of fuel management system
- Powerful detergent additives dissolve varnish and deposit build-up

## Packaging

350ml

12 bottles per case

10 LBS. / Case
